

# The VSM HVAC system

**Features and benefits**

## The VSM HVAC system

The VSM HVAC system, from Brook Crompton, can control single or multiple pumps to meet system requirements.

VSM attached to a mobile pump unit

- Constant pressure or flow can be maintained.
- Sleep mode (pumps shut off on zero demand)
- Low water cut off
- High pressure cut off
- Variable ramp times for accelerating and decelerating the motor
- Remote monitoring of pressure or flow possible (modem link compatible)
- 380-480V, 50 - HZ supply as standard
- Display all the functions on a LCD display in English, German, French, Italian and Spanish. Other languages on request.
- Protection of pump against over voltage, under voltage, motor overload and earth fault.
- Operating and run time of pump recorded
- PROFIBUS DP version available and other protocols on request
- Energy saving. Payback figures available on request
